Rome, Sept. 3. *N.S.*

THE Pope has complained to the *Spaniſh* Ambaſſador, of the Inquiſitor General of *Spain*'s being baniſhed from *Madrid*, without the Nuncio's being made acquainted with it, or any Reaſon given for the ſame; To which 'tis ſaid the Ambaſſador only anſwered, That the King of *Spain* thought it neceſſary for his Service to remove the ſaid Inquiſitor General from Court, and let the Pope underſtand, that 'twas done by the Advice of the Court of *France*. The Dutcheſs-Dowager of *Urſini*, who is to accompany the new Queen of *Spain* in her Journey to *Madrid*, ſet out from hence laſt week for *Turin*.

Turin, Sept. 12. The 8th Inſtant the Marquis *de Caſtel Rodrigo*, Ambaſſador from *Spain*, made his Publick Entry into this City, and had Audience of the Dutcheſs of *Savoy*, and of the Dutcheſs-Dowager. The 9th, he had Audience of the Prince of *Piedmont*, and the Princeſs of *Savoy*. The 10th, he waited upon the Princeſs, and delivered to her a rich Preſent of Jewels. The 11th was performed, the Ceremony of her Marriage with the King of *Spain*, who was repreſented by the Prince of *Carignan*, and in the evening ſhe received the Compliments of the whole Court; She was likewiſe Complimented on the part of the Duke of *Savoy*, her Father, by the Count *d'Alex* Captain of his Guards, who was diſpatched hither for that purpoſe. This day ſhe ſet out for *Nice*, where a Squadron of *French* Galleys, with thoſe of *Naples* and *Sicily*, lie ready to attend her to *Barcelona*.

Venice, Sept. 16. The laſt Letters from *Breſcia* give an Account, that the *French* Army is encamped between *Vrago* and *Rudiano*, and have two Bridges over the River *Oglio*. The Imperialiſts are encamped at *Chiari*, their Right Wing extending to *Palazzuolo*, and their Left to *Caſtrezato*, and the two Armies are ſo near, that their advanced Guards are not above 300 Paces aſunder. The *German* Parties make frequent Excurſions on the other ſide the *Oglio*, and bring back a great number of Priſoners, and much Booty. The Regiment of Dragoons of *Vaubonne*, and a Regiment of *Huſſars*, are expected in the Imperial Camp the 19th, and the Regiment of Foot of *Raventlau* the 21ſt; and 'tis ſaid, that when theſe Reinforcements are arrived, the Imperial Army will be 40000 ſtrong. Great Complaints come daily from the Country of *Breſcia*, of the Diſorders committed by the *French* Soldiers, who plunder and waſt whole Towns and Villages, without ſparing even the Churches, inſomuch that the whole Country is ready to take up Arms and join with the *Germans*, who gain their Affection by obſerving a ſtrict Diſcipline; ſo that notwithſtanding the great number of Troops they have in *Chiari* and other Places, the Inhabitants thereof continue their Trade and Commerce without any interruption.

Madrid, Sept. 8. The King of *Spain* began his Journey on the 5th Inſtant to *Barcelona*, having committed the Adminiſtration of the Government during his Abſence to the Cardinal of *Portocarrero*, with an unlimitted Power, which has not only diſſatisfied thoſe of the late Regency, who expected to have been joined in this Commiſſion with the Cardinal, but gives a general Diſſatisfaction to ſee ſuch an abſolute Authority lodged in him. Count *Marſin*, Ambaſſador of *France*, attends the King in his Journey, as does alſo the Ambaſſador of *Savoy*. Money is ſo ſcarce at this Court, that the neceſſary Sums for this Journey were raiſed with much difficulty, and all the Perſons of Quality who attend the King go at their own Expence. Before his departure, he ſent Orders to the Governors of all the *Spaniſh* Sea-Ports, not to permit any *Engliſh* or *Dutch* Men of War to enter into the ſame. The *French* Company trading to *Senegal*, have undertaken to ſupply the *Spaniſh* Plantations in the *Weſt-Indies* with Negro's, in which the *French* King is to be concerned a Fourth Part. They write from *Cadiz*, that Count *d'Eſtrees* continues there with his Squadron, which conſiſts at preſent of 26 Men of War, and 15 Galleys.

Vienna, Sept. 14. The Emperor and Empreſs, with the whole Court, came hither the 10th Inſtant from *Eberſdorf*, to be preſent at the Yearly Proceſſion for the Deliverance of this City from the Siege of the *Turks* in the year 1683. which was performed the 11th, and their Imperial Majeſties returned the ſame day to *Eberſdorf*. There being a great number of *French* Officers taken Priſoners by the Imperialiſts in *Italy*, ſeveral Overtures have been made to Prince *Eugene* for ſettling a Cartel in order to their Releaſement, of which he has given the Emperor an Account, but no Reſolution is yet taken thereupon. Cardinal *Lamberg*, the Emperor's Firſt Commiſſioner at the Imperial Diet, is ſhortly expected here from his Biſhoprick of *Paſſaw*. They write from *Hermanſtad* in *Tranſilvania*, that Count *Rabatin*, who Commands the Imperial Forces in thoſe Parts, was gone from thence to view the Fortifications of the Frontier Towns, and to give Directions for repairing and adding ſome new Works to the ſame.

Dreſden, Sept. 16. The Prince of *Furſtemberg*, Governor of *Saxony* for the King of *Poland*, arrived this day from *Warſaw*. The States of this Electorate met yeſterday. Quarters are preparing in theſe Parts for the *Saxon* Forces, which are ſhortly expected from *Livonia*.

Cologne, September 23. The Elector of *Cologne* refuſing to give any farther Anſwer to the States of this Country aſſembled at *Bon*, concerning his Engagement with *France*, and his new-raiſed Forces, the Diet broke up yeſterday without entring upon any of the Matters he had propoſed for their Conſideration, or granting the Supplies he demanded, thô 'tis ſaid he threatned, if they did not comply, to put the Country under Military Execution. The Deputies from the Chapter have delivered to him a Letter to juſtifie their Proceedings, in which all the Members thereof have been very unanimous. The Elector continues to make new Levies, and puts them into *Bon*, *Rhynberg*, and *Keyſerſwaert*.

Hamburgh, Sept. 23. The *Daniſh* Foot, which are to enter into the Service of the States-General, are drawn together near *Itzehoe*, and will forthwith be put on board the Veſſels that are provided at *Gelucksſtad* and *Weſelſyleth*, to tranſport them to *Holland*; The Horſe are to paſs the *Elbe* to morrow, in order to march thither through the Country of *Lunenburgh*. They write from *Dantzick*, that the *Saxon* Forces continue their March home through *Pruſſia*. Letters from *Libau* in *Courland* ſay,
